

Loronix Video ManagerTM WebReview

Preparing your future with the innovations of today, Loronix Video Solutions bring intelligence to your video. With Loronix's WebReview you can view your entire digital video network from any computer with a web browser. The following information provides detail on the WebReview application.

WebReview allows the user to view live and recorded video utilizing an easy-to-use graphical user interface.

WebReview Key Features:

- ◆ **Multi-camera View:** Allows users to view up to 4 camera views from multiple recorders and sites simultaneously. Users can choose single or 2x2 mode.
- ◆ **Simultaneous Review:** Allows users to review video recorded from up to 4 cameras simultaneously.
- ◆ **Multi-field Query:** Allows video query by camera, date, time, and site.
- ◆ **Site Manager:** This interface has been designed to assist in the administration and monitoring of large digital video networks operating in multiple locations. It allows users to view live or recorded video from any IP-connected Loronix recorder, anywhere in the world.
- ◆ **Playback Controls:** Video can be reviewed in single-frame and multiple-frame increments, either in forward or reverse play back.
- ◆ **PTZ Camera Control:** Digitally control Pan, Tilt and Zoom functions at the click of a mouse. This PTZ control works with a wide variety of analog video matrix switches, code generators and PTZ cameras including products from Philips, Pelco, American Dynamics and Panasonic.

WebReview Features:

- View Video Remotely
- Multi-site Access
- View Live and Recorded Video
- Multiple Video Layouts
- PTZ Camera Control
- IP Camera Support
- Print frames from live or recorded video

WebReview allows the user to choose from multiple video layouts.
